

RightMed®

PORTAL ORDERING GUIDE

1

Log into:

MyRightMed.com/BCBSM-providers

and create your account.

2

Review patient test requests and order tests for your patients identified for the program.

3

Discuss the test with each patient, secure their informed consent, and encourage them to take and return the test.

4

We ship the test to your patients – they collect their sample via cheek swab and mail it back to us.

5

You and your patient receive RightMed test results via the secure portal.

RightMed[®]

FAX ORDERING GUIDE

1

Complete a Test Requisition Form for each eligible patient you'd like to receive a RightMed test – contact OneOme to find out who's eligible.

2

Discuss the test with each patient, secure their informed consent, and encourage them to take and return the test.

3

We ship the test to your patients – they collect their sample via cheek swab and mail it back to us.

4

We also email your patients (at the address you provide) and ask them to create a secure patient portal account for their results.

5

We'll send RightMed test results to you via the fax number you provide, and your patient (via their patient portal).
